

I'd like to ask you to NOT place LPFM in a priority over FM translators. I listen to K-LOVE, a station which relies heavily on FM translators as a non-profit radio station. K-LOVE provides Christian music and is commercial free, and I great appreciate it as a station because my family and I can listen to it any time and I always know the information and music will be acceptable for my children and uplifting for our whole family. There are many others in my community who listen to K-LOVE on a regular basis and would feel a definite loss if K-LOVE became unavailable in our area. Music that is wholesome and provides a positive message is very important for our community, with families and people who are seeking to put their best foot forward in a society that doesn't always offer such positive choices. Please consider leaving the FM translators as a priority over LPFM so that our community and others will not face the possibility of losing good music with a good message for something that is not as valuable. Thank you.
